

# I Learned to Trust God

Sam McLean

My experiences with the Internship greatly enhanced my spiritual life as I learned to trust God. I came into the Internship doubting what God was doing in my life and in the world around me. I was worried about my future, my career, my relationships, and even my salvation. By putting my life on hold for six weeks with this intern program, God showed me that I need to trust Him. He showed me my weaknesses, and He showed me that my strength only comes through Him.

There is a part of me that wants God to give me guarantees. But He helped me realize something very valuable: the only guarantee I need is that He loves me and has my best interest in mind. I learned to trust Him for the rest. Throughout all our Internship activities, God provided me with constant reminders of His love for me. And He has perfect timing. Through classes, conversations, and events that occurred, the Holy Spirit chastened and reminded me that He has a plan. The lessons He taught me—in both the difficult times and the pleasant moments which the Internship fostered—are lessons that I will apply and thank God for every day.
